## **Middleby Acquires Icetrol, Expands Growing Beverage Business**

Elgin, Ill. (June 30, 2022) – The Middleby Corporation (NASDAQ: MIDD) today announced the acquisition of Icetrol, a maker of ice, soft serve and slush machines that are used worldwide in commercial foodservice. With annual sales of approximately \$40 million, the company is headquartered in South Korea with U.S. operations based in Anaheim, California.

“Icetrol products are highly complementary to our growing portfolio of Middleby beverage brands. Because of their exceptional products and demonstrated reliability, Icetrol machines are approved by numerous regional and global chain customers,” said Tim FitzGerald, Middleby CEO. “Icetrol expands our offerings in ice, adding a selection of cubed and flaked machines, while their soft serve and slush machines enhance our existing product lines with a collection of countertop equipment. Icetrol soft serve technology has heat-treat pasteurization capabilities addressing food safety issues, while reducing cleaning and labor requirements.”

“Icetrol has a modern, state-of-the-art production facility with rigorous quality standards. This acquisition furthers our Asian manufacturing capabilities and provides us with local solutions to support our customers expanding in international markets,” Mr. FitzGerald continued.

More information on Icetrol is available at [icemaker.co.kr](http://icemaker.co.kr) or [icetroamerica.com](http://icetroamerica.com).
